Hygiene & Sanitation in the Workplace

Online Learning
May 20, 2020

At Home Before Start of Shift

- Be aware of your health condition. If you feel unwell, stay home and call HR.
- Eat, hydrate, and sleep properly
- Submit the daily online health form one hour before shift
- Take a shower then put on clean clothes, cloth mask & closed-in shoes

At Home Before Start of Shift

- Prepare to bring with you
  - Packed lunch & water jug
  - Extra clean masks in plastic bag
  - Extra plastic bag for used masks
  - Hand sanitizer
  - Tissue paper
  - Pen

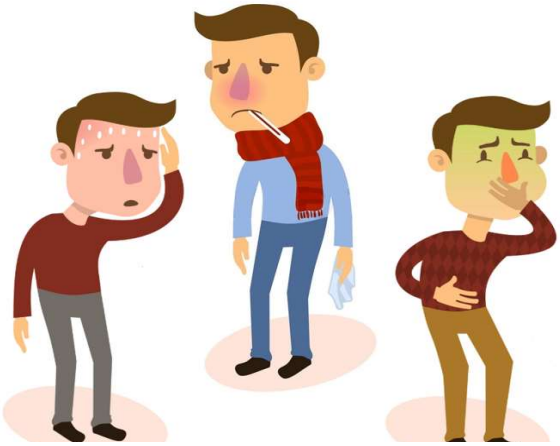

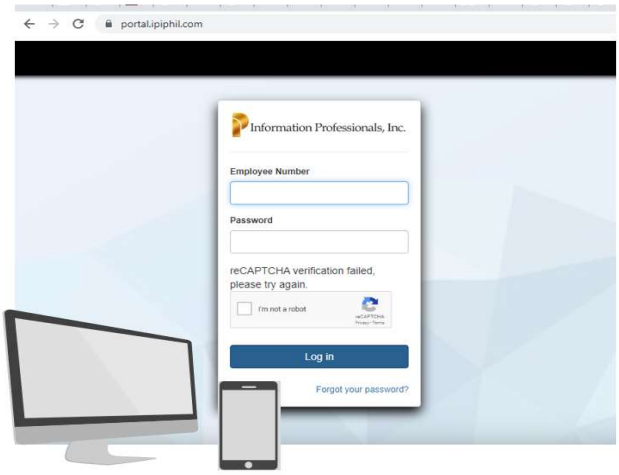

If You Don't Feel Well Before Shift

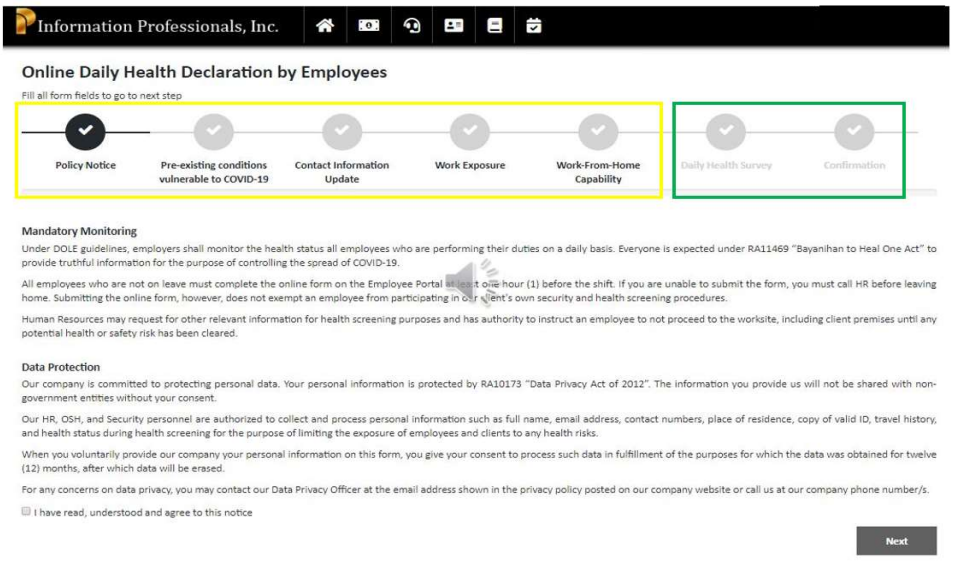

- Stay at home and call HR to file an SL
- Self-isolate from housemates
- Don't take symptom reducing medicines for three days and observe symptoms
- Eat, hydrate and sleep adequately
- Call your healthcare professional if symptoms get worse
- Don't announce your unconfirmed condition on social media
- Don't share the health status of co-employees with other people

Daily Online Health Form

- Do this one (1) hour before shift
- No submission = barred from entry
- Access by logging on Employee Portal

Putting on a Cloth Mask

- Start with washed hands and a fresh cloth mask without vents
- Put on and adjust mask by handling the ear loops or straps
- Fit well on all sides so that no air leaks from all sides
- If the mask gets moist or wet, replace it with a new mask
- Bring at least 2 extra clean masks in a clean plastic bag
- Avoid touching your face, eyes, nose, and mouth
- Wash or sanitize hands after each time you touch your mask

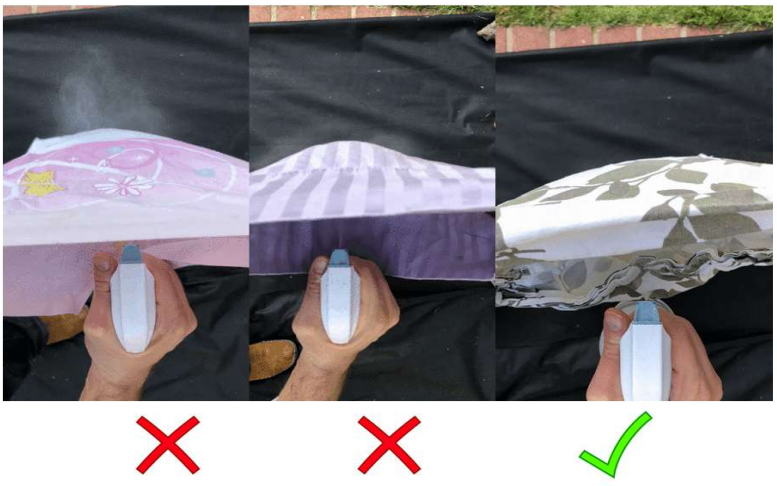

Removing Your Mask

- Wash or sanitize hands first
- Handle mask by the earpieces and take it off
- Don't touch the outside part of the mask
- Don't put it on any surface
- Put used mask in another plastic bag for washing later
- Don't touch your face, eyes, nose, mouth during removal
- Wash hands after removing the mask
- Wash your used masks at home with detergent and water

DIY Barrier Test on Cloth Mask

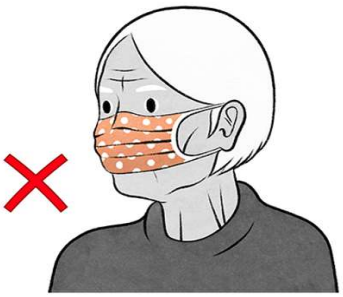

Incorrect Ways to Wear a Mask

Mask does not cover nose.

Mask is resting on the neck.

Mask does not cover chin.

Incorrect Ways to Wear a Mask

Mask only covers tip of nose.

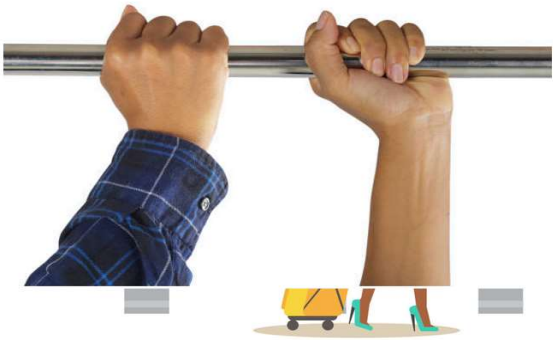

Mask is loose with side gaps.

Mask covers up to near bridge of nose, underside of chin, and is snug on face without gaps.

Taking Public Transportation

- **Prepare exact change or use stored-value and no-contact cards**
- **Avoid over-crowded and poorly-ventilated areas as much as possible**
- **Use your body when pushing turnstiles or doors whenever possible**
- **Wash or sanitize after touching hand grips, poles or seats inside the vehicle**
- **Sanitize hand before getting things in bag**
- **Don't set your bag on surfaces, keep carrying it or set it on your lap**
- **Only use your phone for emergencies**

Arriving at the Office

- Sanitize hands before getting anything from the inside compartment of your bag
- Clip-on your ID only upon arriving; avoid using a lanyard
- Cooperate with the office building health screening and safety protocols
- Push turnstiles and doors with your body, not with hands whenever possible
- Wash or sanitize hands after touching
  - Front desk
  - Stair rails
  - Door handles
  - Elevator buttons
  - Biometric devices

Arriving at your Desk

- Use alcohol or bleach solution to wipe
  - Mobile phone
  - Desk phone & tabletop
  - Keyboard & mouse
  - Computer screen
  - Other desk surfaces you touch often
- Set your bag on a freshly cleaned surface or in a locker
- Keep the drinking spout of your water jug or drinking cup covered.
- Wash your drinking cup before using, don't use an exposed supply of disposable cups
- Hydrate adequately during short breaks to avoid removing your mask too often

Proper Hand Washing

Video by Babylon Health at www.youtube.com/watch?v=seA1wbXUQTs

- Wash with soap for +20 seconds
  - Palms
  - Backs of hands
  - Between & around fingers
  - Fingertips & nails
  - Wrists
- Rinse well & dry with tissue
- Faucet off with tissue or elbows
- Discard tissue in trash can
- Wash hands before eating and hands after using the toilet

Using Alcohol-Based Sanitizer

Video by Minnesota DOH at www.youtube.com/watch?v=nA3G7NBOseQ

- **Not appropriate when hands are visibly dirty, greasy, and after using the toilet**
- **Use 60% to 75% alcohol**
- **Use enough to rub for 20 seconds**
  - Palms
  - Backs of hands
  - Between & around fingers
  - Fingertips & nails
  - Wrists
- **Allow to air dry**

Sneeze & Cough Etiquette

Even with a mask, sneeze or cough into a tissue or your elbow, away from people.

Dispose used tissues and masks in the proper bin then sanitize hands.

Regularly wash hands or use hand sanitizer for 20 seconds.

Social Distancing in the Office

- **Keep mask on and stay 3 to 6 feet away from other people**
- **Follow one-way walk paths**
- **Videoconference if possible**
- **Maintain distance in**
  - Elevator, Stairs
  - Washroom, or Cafeteria
- **Some sites might only allow solo lunches or coffee breaks**
- **No handshakes or hugs**
- **Go paperless if possible**

Preparing to Eat or Drink

- Sanitize your dining surface then wash your hands; repeat after eating
- Remove mask properly; if you will replace it with a new one later, keep the used mask in a separate plastic bag
- Wash hands again before eating/drinking
- Eat/drink alone or stay 3-6 feet away from the next person without talking
- Practice sneeze and cough etiquette
- Wash hands before putting on a new mask

Reusing Cloth Mask After Eating

- Sanitize your hand before touching the mask by the ear loops
- If mask is still dry, fold it so that the outside of mask is inside then keep in folded in a clean paper or plastic bag
- If it is wet or visibly dirty, keep the mask in the "dirty mask", use a clean one later
- Wash hands again before eating/drinking
- Wash hands before putting on the properly folded mask
- Wash hands again after putting of the mask

After Work

- Wipe down and clear your desk before leaving the office
- Before entering your house, disinfect the bottoms of your shoes
- Sanitize your hands, ID, hair accessories, belts, or jewelry then put them in your bag
- Keep your office bag inside a plastic box, sanitize hands then cover it
- Keep used clothes in a closed hamper for washing later then take a shower
