I. PURPOSE

1.1 To adhere to Department of Labor and Employment, Labor Advisory 03, S. 2021 known as "Guidelines on the Administration of COVID-19 Vaccines in the Workplaces"

1.2 To provide and maintain a workplace that is free of known hazards in accordance with DOLE – Occupational Safety and Health standards.

1.3 To safeguard the health of our employees and their families, clients, visitors, and community from infectious disease such as the Coronavirus or COVID-19 that may be reduced by vaccinations.

II. SCOPE

This policy applies to all active employees regardless of employment status.

III. RESPONSIBILITY

3.1 Chief Executive Officer

- Authorizes the creation of this policy, including the approval of plans, programs, procurement, and budget.

3.2 General Manager

- Creates policies and procedures, including the establishment of guidelines, selection of partners and the development and monitoring of timelines.
- Responsible to ensure regulatory compliance, including and not limited to the adherence to government mandates and report submissions.

3.3 Department Manager

- Ensures that risk eligibility assessment of onsite employees is conducted and documented to determine the risks of employees to COVID-19 vaccination based on their health, duties, and environment.
- Assists in the promotion and implementation of this program.

3.4 Human Resources Manager

- Organize HR and Communications programs to support this policy.
- Moderate schedules and budget of activities.

3.5 Core OSHCOM

- Performs duties required by DOLE under the OSH organization.
- Co-plan, facilitates, ensures the success of activities under this policy.

IV. REFERENCES

4.1 DOLE Labor Advisory No. 03, S. 2021 "Guidelines on the Administration of COVID-19 Vaccines in the Workplaces", attached as **Annex A**.

4.2 Department of Health, "The Philippine National Deployment and Vaccination Plan for COVID-19 Vaccines", January 2021, attached as **Annex B**.

V. GUIDELINES/POLICIES

5.1 The Company shall adopt and implement the vaccination policy as part of OSH program and consistent with the guidelines issued by the Department of Health (DOH), Inter-Agency Task Force (IATF) and Department of Labor and Employment (DOLE)

5.2 Vaccination is voluntary and shall only apply to employees who wish to participate.

5.3 Company will pay for all vaccinations covered in this policy, including all required 2 doses for active employees who voluntarily registered for the program. In the event of a booster shot or a third shot, the company may not shoulder it. Transportation costs to and fro the relevant Inoculation Site will not be covered by the company.

5.4 While the Company has legitimate reasons for encouraging vaccination, the Company expressly prohibits any form of harassment, discipline, reprisal, intimidation, or retaliation based on employee's decision to avail or not to avail the vaccine. Employees shall not be discriminated against in terms of tenure, promotion, training, pay, and other benefits, among others, or terminated from employment.

VI. PROCEDURES

6.1 Planning

- To ensure quality, authenticity, reliability and availability, the company shall only purchase from an authorized source. Vaccine suppliers must meet the usual

commercial requirements from the Food and Drug Administration or WHO minimum requirements.

- Given the urgent nature to protect our employees, vaccines may be procured outside the normal procurement process from a readily available and authorized source. The company has engaged in a private sector-led procurement under R.A. 11525.
- The entity leading the procurement will be providing the cold chain storage, delivery and supply chain management services for the vaccines which the company ordered through the authorized source.
- Vaccine deliveries will be done in tranches and will start distribution during the second quarter until fourth quarter of this year. Prioritization **(attached as Annex C)** following the guidelines set by DOH will be strictly implemented.
- An initial survey shall be conducted to assess the number of employees who are willing to receive the vaccine **(attached as Annex D)**.

6.2 Registrations/Master List

- The company shall contract a DOH accredited healthcare service provider from the list given by authorized source to administer said vaccines to employees.
- The company shall conduct a second survey to employees who are willing to avail of the vaccine. The survey, following the Vaccine Information Management System – Immunization Registry (VIMS-IR – **attached as Annex G**) template will be used for the required master list of the names and profiles of each Vaccine Recipient subject to the provisions of the Data Privacy Act of 2021 and issuances of the Department of Health (DOH) and the Department of Information and Communications Technology (DICT).
- The completed VIMS-IR shall be submitted to the chosen DOH accredited healthcare service provider as part of their pre-screening process to aid in determining priority groups and eligibility for the administration of the vaccine.
- In the said survey, vaccine recipients would be answering a number of forms **(attached as Annex E)** to provide needed personal information, contact details, allergies to vaccine components and medical conditions/comorbidities.
- The consent and waiver of indemnity form in the last portion of the survey serves as confirmation that submitted information from vaccine recipients are certified true and correct, as well as consent to the collection, processing and storage of their personal data for purposes of Covid-19 health and vaccination assessment which will

be endorsed to the chosen Healthcare Service Provider. The full clause is referenced on Annex E **(attached as Form E on Annex E)**.

- A separate consent, waiver of liability and responsibility form is to be handed to confirmed vaccine recipients to execute and sign electronically, and one copy signed by hand to be submitted to the company (**attached as Annex F**).
- Confirmed vaccine recipients shall also execute and sign other waivers or documentations required to be filled out or submitted at the Inoculation site as needed.
- The company shall make use of a Platform utilized by the authorized DOH accredited healthcare provider in the organization, planning, registration, scheduling, record-keeping and tracking of each employee's vaccination process.

6.3 Mobilization

- To pre-register employees, HR will submit to the authorized consolidator tasked to upload onto the Platform, a master list of vaccinees to the authorized healthcare service provider using the VIMS-IR (Vaccine Information Management System – Immunization Registry) template provided.
- Vaccine recipients may or may not be instructed to download an application (should there be any) used by the health service provider to monitor their vaccination status, check their schedules or report any adverse effects.
- Vaccine recipients will be notified either by an application (should there be any) used by the healthcare service provider or by HR regarding their vaccination schedules.
- Scheduling
    - HR will schedule Vaccine Recipients through the Platform based on
        - Employee Category and Prioritization
        - Vaccine Availability
        - Vaccinator Capacity
    - Employee will be notified by email and/or by mobile number of his or her scheduled vaccination date, time and venue.
    - Email will contain the QR code and health declaration form which will be required to be printed.
    - Should the schedule of vaccination fall on a workday or a weekday that is not their rest day, employee can file it as Official Business (OB). This applies to the first and second dose.
    - HR shall inform each of the Vaccine Recipient that they:

- Are required to arrive at the relevant Inoculation Site at the scheduled date of their appointment
- Will not be allowed to enter the relevant Inoculation Site prior to the scheduled time of their appointment
- Are required to follow the COVID-19 safety protocols and guidelines of the relevant Inoculation Site

VII. ADMINISTRATION & MONITORING

7.1 Covid-19 Communication Programs

7.1.1 We pride ourselves on being a Company that puts the health and safety of our employees first. In the age of COVID-19, protecting employees has meant taking several measures, like transitioning to remote work and providing flexible work arrangements. The company acknowledges the importance of COVID-19 vaccines as it is proven to protect against serious illness from the novel coronavirus and are thought to lessen rates of transmission.

It is for all these reasons that we are implementing this policy and to support our employees in getting vaccinated, we will be activating the ff. internal communication programs:

- From the Experts
- Host information webinars, townhall and online meetings with credible experts who can share reliable information on the vaccine.

- Leadership Encouragement
- Company leaders will deliver key messages about vaccinations internally through posters and emails.

- Information Campaign
- Encourage employees to sign up by use of behavioral based videos, messages, taglines, and campaigns.

- Posting and/or distribution of collaterals from reliable sources (Ingat Angat, CDC, WHO, DOH) about real news and updates regarding the vaccine.
- Timely updates on the requirements, scheduling, and roll outs.

- Health Checks
- Conduct regular health monitoring for registered employees with listed comorbidities pre and post inoculation.

7.2 Vaccine Administration

7.2.1 The company and its vaccine recipients shall utilize the inoculation sites, including the Platform for scheduling and services for vaccine administration.

7.2.2 The company assigns the HR Manager as the administrator who shall be responsible for the use of the Platform required by the chosen health service provider and upload all the information as may be deemed necessary by the vaccine manufacturer and pursuant to relevant rules, regulations and applicable laws.

7.2.3 If a Vaccine Recipient is more than 30 minutes late for their Appointment or if a Vaccine Recipient fails to attend their Appointment on the scheduled time and date of the Appointment without proper written notice at least 36 hours prior to Appointment, this shall result in forfeiture of the assigned vaccine dose and the amount paid for the Cost. As such, failure to attend confirmed appointment without 36 hours prior notice will result in charging the vaccine recipient with the vaccine administration cost of P350.00.

7.2.4 For prioritization purposes, HR shall inform Vaccine Recipients who are senior citizens that they are required to present an identification card to show proof of age upon registration at the Inoculation Sites. HR shall ensure that those Vaccine Recipients with comorbidities (i) have indicated their medical condition in the Platform and (ii) when required, are ready to show proof of comorbidity such as a.) medical certificate/clearance issued by a licensed physician specifying the full name of the attending physician and his/her contact details b.) prescription for medicines c.) hospital records such as the discharge summary and medical abstract d.) surgical

records and e.) pathology or laboratory results. Those documents should have been issued within the last eighteen (18) months.

7.2.5 HR shall inform each of the Vaccine Recipients of the following:

7.2.5.1 On the day of their Appointment, the Vaccine Recipient will be medically screened at the relevant Inoculation Center before the vaccine can be administered.

7.2.5.2 When so required by the DOH, the vaccination shall be deferred if, after screening, the Vaccine Recipient is found to be a.) presenting with sBP> 180 and/or dBP>120 with signs and symptoms of organ damage (Hypertensive Emergency) b.) in the first trimester of her pregnancy and c.) other medical conditions which, after medical screening, render him/her unfit to receive the vaccine.

7.2.6 Vaccination Day

7.2.6.1 Vaccination Sites will accept only pre-scheduled vaccinees.

7.2.6.2 Reception/Registration

7.2.6.2.1 Scan the QR code to check eligibility and schedule

7.2.6.2.2 Check versus government issued ID

7.2.6.2.3 Check Health Declaration Form

7.2.6.3 Counselling, Doctor Assessment & Consent

7.2.6.3.1 After Doctor assesses final eligibility, vaccinee is required to sign on the consent form.

7.2.6.4 Vaccine Administration

7.2.6.4.1 Nurse will record the brand/batch lot no./arm.

7.2.6.5 Holding Area

7.2.6.5.1 Vaccinee will be observed for 15 minutes (for healthy) or 30 minutes (with comorbidities)

7.2.6.5.2 Nurse will record and report any adverse effects

7.2.6.6 Schedule for the second dose will be provided.

7.2.7 Post Vaccination

7.2.7.1 Vaccinee would be able to report any adverse effect using the Platform utilized by the Healthcare Service Provider or they can report it to HR and HR will report it to the Platform.

7.2.7.2 Vaccinee will be notified via email of his or her 2nd dose vaccination schedule: (5) days before and (1) day before.

7.3 Success rates, and other pertinent reports and findings will be presented during OSH meetings for discussion, and action plans.

VIII. EFFECTIVITY & PROGRAM TIMELINES

Voluntary Vaccination Policy will take effect on May 24, 2021 up until total ordered allocation is consumed or has been utilized.
