Professional IT SOLUTIONS INC.

December 15, 2019

Dear **Aperin,**

Thank you for participating in the online employee safety and health orientation for 2019. We take workplace safety very seriously and expect all employees to participate in efforts to educate and prepare the team for emergency situations.

As announced in the memo, we will be crediting regular overtime hours to those who complete the videos and quizzes outside of normal work hours. However, upon checking your online activity, your records show that you accessed the modules during your normal work hours.

Since you are given regular salary for work done during your normal shift, you will not be credited overtime pay for this activity. However, you will still be given a digital Certificate of Completion via the Payslip Portal for viewing and completing all the modules.

We take workplace safety very seriously and expect all employees to fully cooperate in all efforts to educate and prepare the team for emergency situations. If you have questions on your participation records, please be in contact with an Employee Care & Relations representative.

Thank you,

Compliance Management Office
Cc: HR Department / Employee

Professional IT SOLUTIONS INC.

Certificate of Completion

is presented to

Aperin, Shaira M.

for participating in the

Basic Employee Safety & Health Orientation

of the *Employee Compliance Learning Series*.
