Professional IT
SOLUTIONS INC.

December 15, 2019

Dear Catherine Farala,

You are receiving this memo due to your failure to participate or complete the required online employee safety and health orientation for 2019. We take workplace safety very seriously and expect all employees to fully cooperate in all efforts to educate and prepare the team for emergency situations.

You will be rescheduled to participate in another batch for the incoming year. Please be reminded that this activity is required for all employees and those who neglect to cooperate may be subject to disciplinary action due to insubordination and for failure to follow general safety rules or practice as per Employee Handbook Schedule of Disciplinary Actions.

If you have questions on your participation records, please be in contact with your Employee Care & Relations representative.

Thank you,

Compliance Management Office
