4. Finally, you need to put-in your Current Password for final checking and click 

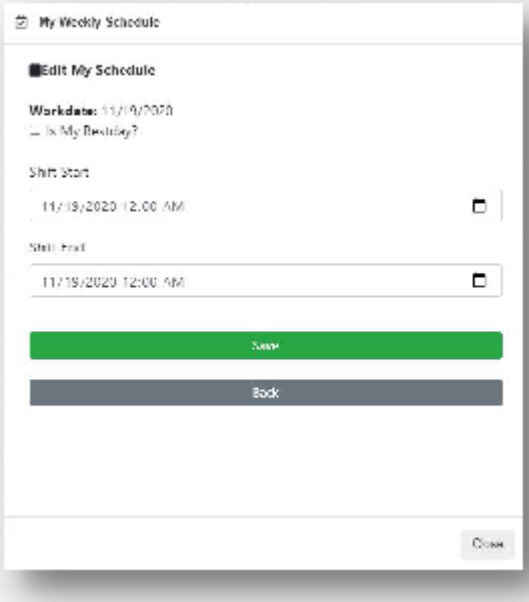

pply the changes.

How do I set up my Work Schedule?

Once you log in to Employee Portal at the start of your new work week, a **My Weekly Schedule** form will pop up to your screen. This form will display the dates within that week.

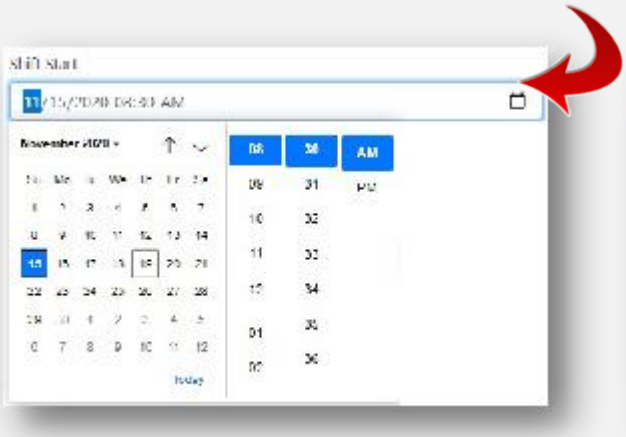

1. To update your schedule for each day of the current work week, click the **Edit My Schedule** link found below each work date. Another form will pop up where you can update the time for the start of the shift and end of the shift.

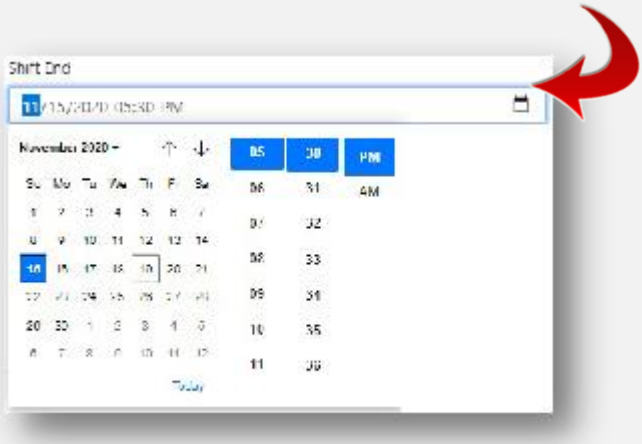

Note: If the work date falls on your rest day, 

tick the box next to **Is my Restday?**

2. To set up your Shift Start and Shift end schedule for the day, click on the calendar button to edit.

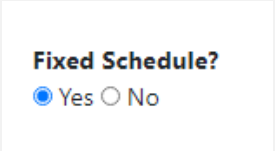

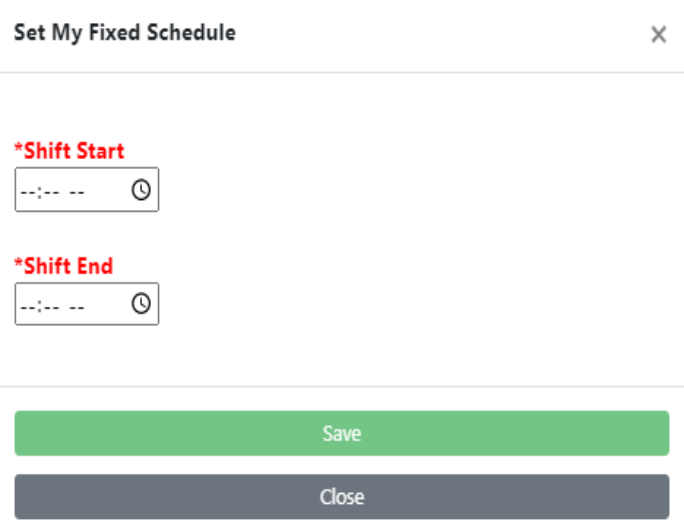

3. Once the schedule has been set up, click 

4. Click the 
on and do the same for the rest of the work days within that week.

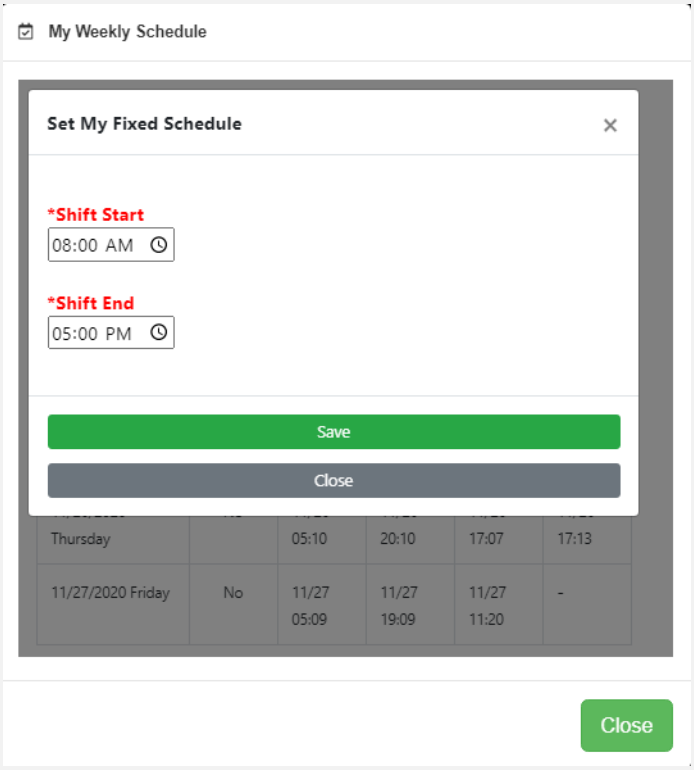

5. If the shift schedule is the same for the succeeding week or month, click **Yes** on the **Fixed Schedule?**

6. Clicking Yes will display the Set My Fixed Schedule form below.

7. Input your shift schedule details then click Save. This will now be applied for the current Weekly Schedule.

8. Clicking No will prompt the system to display the My Weekly Schedule form on the start of the following work week to set up a new shift schedule.

Note: Once the user selects No it will automatically save the record.

Note: If there are changes on the shift schedule after a certain period (e.g. after 2 weeks or after a month), you can just click on the 

to edit it again.

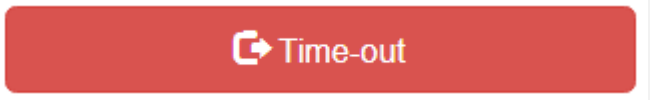

How do I log my Time In and Time Out?

1. The Time-in button will only be displayed one hour before the shift starts.
2. To log in your time at the start of your shift, click on the Time-in button.

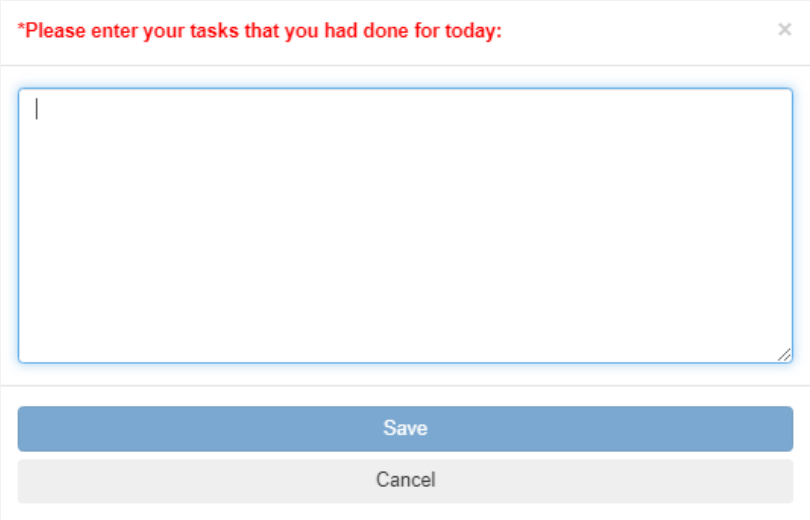

3. The Employee Portal page will automatically refresh and will now only display a Time-Out button.

4. Enter the Employee Portal again at the end of your shift, and click on the Time-Out button.

5. A module will appear that will require you to enter your completed tasks for the day. Click Save to complete your daily attendance.

FAQS

QUESTION 1: What if I need to log in 2 hours ahead of my shift schedule?

"For the Time-in button to become available, you must first change your schedule for that specific day. For example, your current shift for the week is from 8:30am-5:30pm but on Thursday you are required to work from 6:30am-3:30pm instead. You must first change the shift schedule on the **My Weekly Schedule** form to 6:30am-3:30pm before clicking the Time-in button.

QUESTION 2: What if I accidentally click the **Time-Out** button in the middle or before the end of my shift?

"The last click on the Time-Out button will be the one accepted in the system. Note that overtime periods will still be verified and approved by your immediate supervisor.

QUESTION 3: What if I forgot to click on the **Time-Out** button for my previous work shift?

"You will be marked for unauthorized work for that day.
